

# Biosafety in Action

**Exposure** to biohazards can happen in the following ways

Absorption  
(through eyes or skin)

Ingestion  
(through mouth)

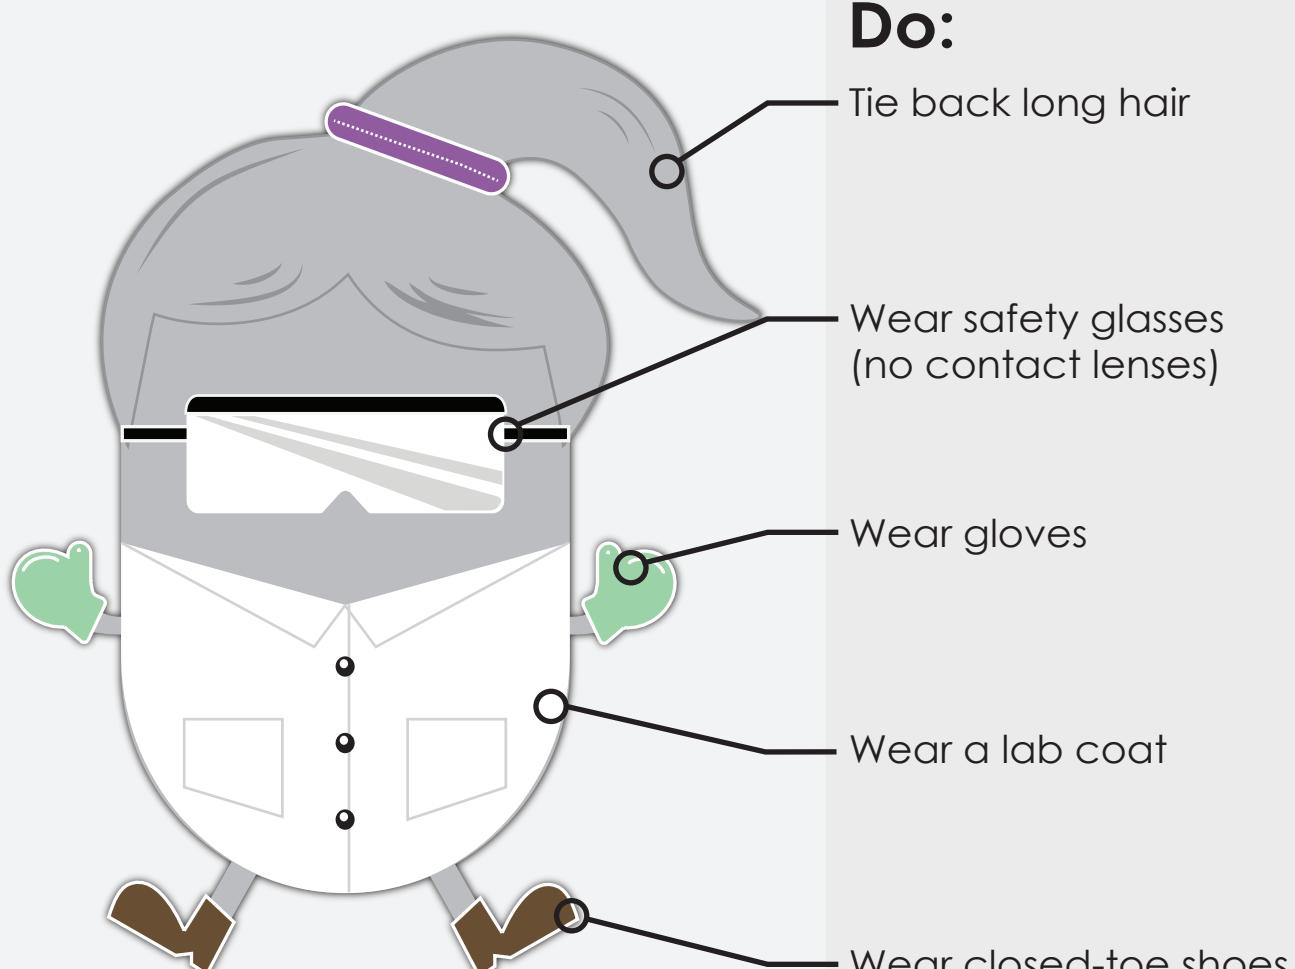

Inhalation  
(through nose/mouth)

Injection or  
puncture wound

How to **protect** yourself and others when using biohazards

## Do:

## Don't:

Touch personal  
objects with  
contaminated gloves

Create fine spray with  
biohazards

Bring food into  
the room

Bend, shear or recap  
used needles

**Remember to always wash hands and decontaminate workspaces after all activities!**
